

Barbizon has changed me in many ways. He is an
 "over-graduate" - you are helping me taking the
 classes to prepare me in being a model and making
 in the industry. The best thing that helped me
 earned from my instructor. We work my friend-
 and classmates how to make turn with make up
 as my the normal and putting a fashion show
 had never been make up before, and was happy
 to know how to wear it, and keep it looking natural
 and beautiful. I had fun learning the runway technique
 and many ways of doing different walks. Being color
 analysis was great because it made me realize what
 wear and how I wear it, made a difference in my
 appearance. I was able to know my own skin
 yet get up and not being in a wallflower
 in the d'fure and with
 Thank Barbizon was one many
 helped me. I had a great time
 and in the some way for
 me.
