

Dear Gene,

I wanted to thank you on what a wonderful job you did. You helped me in a lot of different ways throughout this experience. You taught me to over come my shyness, even though everyone gets scared sometimes. You've always given me great advice and never let me down. You've been there for all of us girls in many different ways. You are a great actress and I think with you in that classroom giving us tips made us feel a whole lot better to here from such a committed actor. Even though some of the things we had to do were kind of scary I knew it helped. I think I have improved a lot since the first class with your help. I think that you being a teacher improves and helps every person that goes through the school. Thanks for being such a great teacher.

**Sincerely
Yomaira Pirela**
