

What Barbizon Has Done for Me

I am a changed person from my experiences at Barbizon, I have without a doubt changed for the better. Not only in my appearance, but also in my personality, intellect, and form. My personality is much better, because I view other people in a different manner than I did before Barbizon. Intellectually I have changed, because now I understand that beauty is only the half of being a model, the other half is your sense of fashion, style, and your ability to sell a prod-

And another thing that Barbizon has changed for me is my form, I have much better posture, balance, and over all, a better look. The one thing that Barbizon has given me that I am most proud of is a sense of dignity. I feel like anything is possible for me now, I know that I have accomplished something, and no one can take it away from me. Once I receive that certificate I have something that I completed, and no matter what, I can say that I finished something and I never gave up. I would like to thank Barbizon for all they have given me and that someday I can return the favor to them. There will always be a special place in my heart for Barbizon, and once again, to all of the teachers, thank you for all you have given me.
